Contents Vol. 108

Geochemistry of the 2.51 Ga old Rampur group pelites, western Himalayas: implications for their provenance and weathering
M.I. Bhat and S.K. Ghosh 1

Gneiss-cored interference dome associated with two phases of late Pan-African thrusting in the Central Eastern Desert, Egypt
T.J. Fowler and A.F. Osman 17

New U–Pb and Sm–Nd data from north-central Cameroon and its bearing on the pre-Pan African history of central Africa
S.F. Toteu, W.R. Van Schmus, J. Penaye and A. Michard 45

Archaean mafic magmatism in the Kalgoorlie area of the Yilgarn Craton, Western Australia: a geochemical and Nd isotopic study of the petrogenetic and tectonic evolution of a greenstone belt
R. Bateman, S. Costa, T. Swe and D. Lambert 75

Nd isotopic and geochemical signature of the Paleoproterozoic Trans-Hudson Orogen, southern Baffin Island, Canada: implications for the evolution of eastern Laurentia
R.J. Thériault, M.R. St-Onge and D.J. Scott 113

The Johannesburg Dome, South Africa: new single zircon U–Pb isotopic evidence for early Archaean granite–greenstone development within the central Kaapvaal Craton
M. Poujol and C.R. Anhaeusser 139

Ammonium as a biomarker in Precambrian metasediments
S.R. Boyd 159

Obituary

Victor Raymond McGregor, 1940–2000
A.P. Nutman and C.R.L. Friend 175

A 3.5 Ga granite–gneiss basement in Guinea: further evidence for early archean accretion within the West African Craton
D. Thiéblemont, C. Delor, A. Cocherie, J.M. Lafon, J.C. Goujou, A. Baldé, M. Bah, H. Sané and C. Mark Fanning 179

Zircon U–Pb and galena Pb isotope evidence for an approximate 1.0 Ga terrane constituting the western margin of the Aravalli–Delhi orogenic belt, northwestern India
M. Deb, R.I. Thorpe, D. Krstic, F. Corfu and D.W. Davis 195

Post Jotnian basic Intrusions in the Fennoscandian Shield, and the break up of Baltica from Laurentia: a palaeomagnetic and AMS study
S.Å. Elming and H. Mattsson 215

$^{40}Ar/^{39}Ar$ geochronolgy and Neoproterozoic tectonics along the northern margin of the Eastern Ghats Belt in north Orissa, India
W.A. Crowe, M.A. Cosca and L.B. Harris 237
Strontium and carbon isotope geochemistry applied to dating of carbonate sedimentation: an example from high-grade rocks of the Norwegian Caledonides
V.A. Melezhik, I.M. Gorokhov, A.E. Fallick and S. Gjelle 267
Correlation of supracrustal sequences and origin of terranes in the Sveconorwegian orogen of SW Scandinavia: SIMS data on zircon in clastic metasediments
B. Bingen, A. Birkeland, Ø. Nordgulen and E.M.O. Sigmond 293
Rodinia refined or obscured: palaeomagnetism of the Malani igneous suite (NW India)
T.H. Torsvik, L.M. Carter, L.D. Ashwal, S.K. Bhushan, M.K. Pandit and B. Jamtveit 319

Discussions
Comment on 'Two cases of continental collisions and related tectonics during the Proterozoic period in India – insights from gravity modelling constrained by seismic and magnetotelluric studies' by Mishra, D.C., Singh, B., Tiwari, V.M., Gupta, S.B., Rao, M.B.S.V., 2000. Precambrian Research 99, 149–169
S.K. Acharyya, B.K. Bandyopadhyay and A. Roy 335
Reply to the comment on 'Two cases of continental collisions and related tectonics during the Proterozoic period in India — insights from gravity modelling constrained by seismic and magnetotelluric studies' (Mishra, D.C., Singh, B., Tiwari, V.M., Guptal, S.B., Rao, M.B.S.V., 2000. Precambrian Research 99, 149–169) by S.K., Acharyya, B.K., Bandyopadhyay, A., Roy
D.C. Mishra and B. Singh 339
